

ScriptSafe® Prescription Storage Case

Flambeau® Inc. is proud to announce a new patented storage case called, "ScriptSafe®." ScriptSafe is a new to market heavy-duty plastic carrying case with patented locking features designed to safely store and help secure prescription medications.

ScriptSafe Case Features and Benefits

The ScriptSafe case incorporates a patented "cam-actuated" locking mechanism which locks the case down--while contents inside remain locked! ScriptSafe is designed to be locked down--then easily and quickly dismantled and moved, if needed. With ScriptSafe, you control where and how your medications are stored.

The ScriptSafe case is designed to be strong, durable, and maintenance free. Manufactured with a proprietary structural foamed polypropylene, ScriptSafe is designed with heavy thick walls throughout the case and includes tamper resistant hinges and latches. Two keys are provided with every case eliminating the need to memorize combinations or fumble with dial locks. Three versions of the ScriptSafe case will be offered--with two unique offerings incorporating a patent pending "lock-down" feature. Find the new ScriptSafe case at www.flambeaucases.com/scriptsafe

Configuration 1: Locking latch with open storage area and Flambeau's patented "lock-down" mounting feature. This feature securely mounts and locks the case in position.

Model Number:
6526MD

Configuration 2: Locking latch with individual compartments for separating and organizing medications--including optional storage area for syringes and needles. This case also incorporates Flambeau's patented "lock-down" mounting feature with the convenience of moving the case from its fixed position while the case remains closed and locked! This feature has broad appeal to nursing homes; hospitals; schools or wherever "people on the go" require storage and mobility with their personal medication.

Model Number:
6527MD

Configuration 3: Durable key-lock latch with an open storage area inside the case which provides plenty of room for storing personal items. All the attributes of ScriptSafe without the "lock-down" mounting feature.

Model Number:
6525MD
