## No Rust With Zerust ${ }^{\text {® }}$

Zerust ${ }^{\oplus}$ has proven to be the absolute best way to protect your equipment against rust \& corrosion. The Zerust VCI (Vapor Corrosion Inhibitor) is molded directly into many Flambeau ${ }^{\oplus}$ products. Zerust's patented polymer emits a harmless vapor, forming a protective layer around metal surfaces. All Zerust products will maintain their effectiveness for up to five years of hassle free, long lasting protection. Look for the Zerust symbol next to those products that feature this revolutionary technology. This is just another innovation from Flambeau... your most trusted source in storage.

Flambeau Zerust helps to increase efficiency, saves money and, most importantly, protect tools and hardware from rust and tarnish.

Zerust ${ }^{\circledR}$ is a registered trademark of Northern Technologies International Corporation (NTIC). ©2021 Flambeau Inc.

Zerust ${ }^{\circledR}$ is the oldest, most proven effective VCI, (Vapor Corrosion
Inhibitor) in the industry! Flambeau® Zerust Anti-Tarnish provides a solution to the corrosion problem by providing a safe, long-term protective shield. This additive forms a harmless protective layer preventing tarnishing for up to five years.

Flambeau stocks select Super Satchels" ${ }^{\text {" }}$ and Tuff Tainers ${ }^{\oplus}$ with Anti-Tarnish or Zerust molded directly into the product. Most products incorporating the Anti-Tarnish or Zerust features are available through our Special Order Program and may require certain minimum quantities.

## Zerust ${ }^{\circledR}$ Dividers:

Having Zerust molded directly into the dividers themselves creates a harmless vapor barrier around your parts inhibiting corrosion for up to five years (see first chart).

## Black Ribbon ${ }^{\text {™ }}$

Flambeau offers a product line of water resistant cases available in six sizes! These extremely durable cases feature a metal front cam locking mechanical latch system and external rubber bumpers for impact absorption, skid resistance, and greater durability. Made of tough, impactresistant ABS plastic, these cases are available with or without foam, as well as die-cut foam should you require more protection for your valuables. Black Ribbon cases are excellent for outdoor use in demanding environments and are ideal for storing and protecting cell phones, electronic devices, jewelry, small tools, components and more!

## Linesman Case

The Linesman Case is very unique yet versatile. This $43^{\prime \prime}$ long case is designed for multiple storage applications---long and deep enough to store and protect everything from fishing rods to small rifles, and everything in-between. The ergonomic offset handle helps balance the heaviest loads during transport.

## Features:

- Deep 6" base
- (4) Locking points
- Ergonomic off-set handle
- Tough ABS latches
- Piano-style hinge construction
-Stackable

## The "P" Series, (the "Pin-Hinge" Case)

The " P " series case is a Flambeau ${ }^{\oplus}$ original and has a proven track record in most industries and applications. This is a "pin-hinge" style high-density polyethylene (HDPE) blow mold case. The routed
base option is designed to accommodate our standard solid foam or diced foam set and is available in a variety of sizes and depths (see pages 28-29)

Features:

- Heavy-duty latches
- Double wall protection
- Crush-resistant
- Stackable
- Impervious to most chemicals

## Additional Features and Options

The "P" Series is easily customized through engraving, printing, labeling, custom colors, die-cut foam, molded interiors and in-mold decorating (molded into the case) which is nearly indestructible.

## The Aegis Line

The Aegis family of blow mold cases is Flambeau's latest introduction of all integral handle cases. These cases are built tough with double wall protection, steel pin-hinge assembly and multiple latch options. The Aegis line can be customized with engraved logo plate, custom molded interiors, foam inserts and other colors than black, if required.

## Airmold ${ }^{\circledR}$ R-Series Case

Airmold Series Integral Hinge

Airmold Series Integral Latch

The "R" series case features an integral hinge and latch system. This simple and reliable blow mold case is our most economical case offering. Constructed from high-density polyethylene (HDPE), this case is tough enough for almost any challenge. Available as a double wall case or with a routed base to accommodate foam, this case offers maximum protection. A broad range of sizes and depths are available.

## Features:

- Integral hinge and latch
- Crush-resistant
- Options: double wall protection or routed base for foam insert

## Double Wall Shipper Mailers

Reusable shipping containers from Flambeau will help you save money and give you the durability needed to protect your cargo while in transit. Our blow mold mailers feature double wall construction and are stackable. Offered with our standard convoluted foam, they are designed to protect even the most sensitive cargo. Lids and bases are separate pieces for loading convenience and feature overlapping positive edges to reduce lid movement and provide a natural dust barrier. Made of highdensity polyethylene (HDPE) our mailers are impervious to most common chemicals and gasoline.

## Features:

- Convoluted foam in the lid and base
- Double wall construction
- Crush-resistant and stackable

## 11 <br> IDS ${ }^{\text {m }}$ Cabinets -

## (Infinite Divider Storage ${ }^{{ }^{m}}$ System)

A hybrid between mobile and stationary storage, these cabinets have interlocking grooves for easy and secure stacking. The IDS ${ }^{\text {mw }}$ system truly gives you mastery over your storage space with (5) IDS translucent boxes featuring dividers that can be placed every 1/16" $(0.16 \mathrm{~cm})$ throughout the compartments!

## Features:

- Infinite Divider System ${ }^{\text {T" }}$ (IDS)
- Resistant to oil \& common chemicals
- Interlocking stackable cabinets
- Dent-proof
- Fully extendable drawers
- Removable cases

Dividers can be placed at $1 / 16^{\prime \prime}(0.16 \mathrm{~cm})$ increments throughout the entire box

*See Compartment Box section (pages 130-131) for additional boxes that will work within these cabinets. Check (page 7) for replacement IDS Dividers

Designed to safely store prescription medications from inquisitive eyes.

## ScriptSafe ${ }^{\oplus}$ Case

ScriptSafe ${ }^{\circledR}$ is a heavy-duty plastic carrying case with patented locking features designed to safely store and help secure prescription medications. Two of the three configurations feature a "cam-actuated" locking mechanism which locks the case down-while the contents inside remain locked.

## Features:

- Steel hinge pin construction
- Tamper resistant hinge segments
- Patented "Lockdown" features
(models 6526MD and 6527MD)
- Includes 2 keys

dissipative material that protects computer cards, chips and circuits from harmful static electricity. This product has an ESD protection range of $1 \times 10^{6}-1 \times 10^{10}$.

## Conductive Cases

## Options:

- Clear conductive window (Special order styles only) - Easy part identification without compromise of Faraday Cage protection
- Grounding Snap
- Reduces surface charges so the case can be safely opened without damaging contents
- Antistatic or conductive foam - (Conductive quoted separately) - (Antistatic included upon request, foam is glued into the case) - Provides physical shock resistance, reduces the potential for static build-up and arc due to the low friction coefficient of the foam

## Technical Data:

- Surface resistivity $10^{10}-10^{11}$ (ASTM D 257 / ESD S11.11)
- Static decay $<2.0$ seconds (MIL-PRF-81705D)

## Features:

- Double wall construction - maximum physical protection
- Locking tabs (select items)
- Secure positive, integral double latches
- ESD protection
- Reusable and stackable

Extra heavy-duty construction makes the polypropylene M-Series boxes tough and durable. These workhorse boxes feature a heavy-duty, heatsealed hinge and overlapping lid to inhibit dust. Impervious to most household chemicals, solvents, oil and gasoline, these boxes keep items safe and organized.

Our "M-Series" boxes are manufactured in the "safety yellow" color.

T-Series boxes provide the same durable construction as the popular M-Series, but are made with translucent polypropylene. These boxes are perfect for "visualizing" components within the box. The T-Series are impervious to most household chemicals, solvents, and gasoline. Great for storage and protection.

## By Size Of Compartments: Large to Small

With the industry's largest selection of sizes and material types you can expect to find what you need right on our shelf. Yet, even with over 300 stock choices, sometimes we have a request for a unique size or compartment configuration. If so, please let us know. Most of our products can be altered to accommodate a special material or core
(compartment) requirement for your project. Finally, we will accommodate you by building a tool specifically for your project right with our Technologies Tool Group.
To help you find what you need we have added a size reference chart that lists all of Flambeau's compartmented boxes from their smallest to largest dimension.
